ASHRAE JOURNAL

EDITORIAL INDEX FOR 1965
VOLUME 7

Names of authors appear in capitals; subject classifications in italics

	No.	Page
A		
ACHENBACH, P. R., see Research Page		
Air Conditioning		
Application of the Principles of Material and Energy Balance to Air-Conditioning Problems, John P. Fairfax	11—	84
Assessment of Common Assumptions in Estimating Cooling Loads and Space Temperatures, An, G. P. Mitalas	11—	96
Automatic Controls for Automotive Heating and Cooling, Gerald L. Rodgers	9—	31
Calculation of Heating and Cooling Energy, E. E. Umlang	12—	46
Climate Controlled and Non-Climate Controlled Schools, Fred Stuart and Hazen A. Curtis	11—	63
Energy Cost for Air Conditioning of Office Buildings in Mild Winter Climates, Trevor R. Tiller and Frederick H. Kohloss	2—	54
Multiple Pipe Distribution Systems, M. G. Gamze	8—	59
Temperature Gradients Between Perimeter-Radial and Overhead Distribution Systems, John M. Craig and Robert S. Sholtes	5—	79
See Heating-Cooling Switchover Systems Symposium		
See Residential Unitary Air Conditioner Symposium		
Air Flow and Pressures near Exterior Building Surfaces, James Halitsky	7—	37
Air Leakage Values for Residential Windows, J. R. Sasaki and A. G. Wilson	12—	62
AKER, J. E., R. G. Squires and L. F. Albright, An Evaluation of Alcohol-Salt Mixtures as Absorption Refrigeration Solutions	5—	90
ALBRIGHT, LYLE F.		
See J. E. Aker		
See John F. Hesselberth

ASHRAE Semiannual Meeting, Chicago		
Program	1—	39
Report	3—	44
ASHRAE 72nd Annual Meeting, Portland, Oregon		
Program	6—	39
Report	8—	69
ASHRAE Technical Committees	1—	127
Nominees for ASHRAE Officers and Board of Directors	4—	84
Proposed By-laws Amendments	4—	88
ASHRAE and Electric Heating, John E. Dube	7—	46
ASHRAE Members to Appear on Educational TV Program	2—	96
AMES, EDWARD J., High Altitude Effects on the Performance of Unitary Air-Conditioning Equipment	4—	47
Analog Computer as a Product Design Tool, The, L. W. Nelson	11—	37
Analysis of Aboveground Fallout Shelter Ventilation Requirements, R. J. Baschiere, M. Lokmanhekim, H. C. Moy and G. Engholm	8—	88
Analysis of Complex Cryogenic Cycles, Milo M. Bolstad	12—	29
ANDERS, JAMES M., Energy and Equipment Selection Procedure for Post Office Buildings	12—	52
ANDERSON, GALE Y., see Warren S. Harris		
ANNIS, JASON C., Ragweed Pollen Efficiency of Filters for Unitary (Window) Air Conditioners	5—	61
ANTHONY, ROBERT J.		
Search and Research: Battelle-Columbus	12—	36
See Comments by the Editor		
Application of Digital Computers to Engineering Data, R. E. Parker	10—	69
Application of the Principles of Material and Energy Balances to Air-Conditioning Problems, John P. Fairfax	11—	84
Application Study of Submarine Thermoelectric Refrigeration Systems, A. B. Neild, W. E. Schneider and E. G. Henneke	2—	44
Applied Air Cleaner Evaluation: A Symposium		
Introductory Statement, P. M. Engle and C. M. Bosworth	5—	33
Evaluation of the Bacterial Filtering Efficacy in the Removal and Destruction of Airborne Bacteria, An, W. L. Margard and R. F. Logsdon	5—	49
Fractional Efficiency Characteristics of Unit Type Collectors, Carl M. Peterson and Kenneth T. Whitby	5—	42
Methods and Results of the Evaluation of Air Filters on Ragweed Pollen, D. J. Sutton, H. A. Cloud and P. E. McNall, Jr.	5—	55
Practical Aspects of an Air Cleaner Evaluation Apparatus, Samuel H. McIver	5—	35
Ragweed Pollen Efficiency of Filters for Unitary (Window) Air Conditioners, Jason C. Annis	5—	61
Testing of Air Filters, Carl W. Coblentz	5—	34
ARMSTRONG, T. D., JR., Chloride Ion Analyses as a Measure for the Evaluation of Sealed-Tube Tests	10—	76
Assessment of Common Assumptions in Estimating Cooling Loads and Space Temperatures, An, G. P. Mitalas	11—	96
Automatic Control for Automotive Heating and Cooling, Gerald L. Rodgers	9—	31
Axial Fan Design, C. S. Vasiljevic	3—	30
B		
Baffles Can Improve Blower Performance, Henri Dyner	1—	102
